**JOB POSTING (FULL-TIME)
GEOTECHNICAL/CONSTRUCTION MATERIALS TESTING
STAFF ENGINEER OR GEOLOGIST**

Work as a member of our geotechnical and construction materials testing staff. This position includes a mix of field, laboratory and office time. During the construction season it is common to visit several construction sites on a daily basis. The majority of our sites are located within a 200-mile radius of Sioux Falls. Overnight travel is limited. To keep up with our client and contractor work schedules, you may be required to start early on certain days and work an occasional Saturday. A minimum of 40 hours per week is expected and overtime may be necessary.

Work as a member of our team of experienced engineers, technicians and drill crews to deliver geotechnical and construction materials testing services to our clients. Perform on-site geotechnical observations, construction materials testing and special inspection services in accordance with project specifications and recognized standards. Communicate with clients and contractors on job sites and completing necessary documentation. Preparing associated reports and oversight of project observations and testing of assigned project sites.

Previous geotechnical or construction materials testing experience is desired, however, we will train someone with the right attitude, is motivated and is willing to learn and be challenged. You should have strong math, verbal and writing skills along with the ability to, or learn to, read construction plans and specifications. A degree in engineering, geology or related science is required.

The position requires the ability to regularly lift and/or move up to 35 pounds and occasionally lift and/or move up to 75 pounds. You must have and maintain a valid driver's license. Some overnight travel may be required with position.

We offer competitive pay, 401k, health, dental & disability insurance, paid sick, holidays and vacation time. Per diem is provided if an overnight stay is required.

We have been in business for over 30 years and specialize in Geotechnical Engineering, Construction Materials Testing, and Environmental/Industrial Hygiene Consulting. For more information, visit our website at www.geotekeng.com.

Serious inquiries can apply to GeoTek Engineering, 909 E. 50th Street N., Sioux Falls, SD 57104 or send resume to Shane Lindner at slindner@geotekeng.com
