**JOB POSTING (FULL-TIME)
STAFF SCIENTIST**

Work as a member of our team of experienced engineers, geologists, scientist, technicians and drill crews to deliver environmental consulting services to our clients.

This is an ideal position for a recent graduate with a degree in engineering, geology or related science that wants to pursue a career in environmental consulting. The candidate will be exposed to a wide variety of services including Phase I/II Environmental Site Assessments (ESAs), Spill Prevention Control and Countermeasure (SPCC) plans, Underground Storage Tanks (USTs) assessments/clean-ups, Brownfields Assessments/clean-ups, landfill monitoring or spill response.

This position includes a mix of field and office work. Field work will consist of visits to projects sites to perform and maintain detailed filed notes of surface soil and water sampling, soil sampling during drilling of test borings and groundwater sampling from monitoring wells. Office work would consist of assisting in completing Phase I Environmental Assessments and preparing sampling reports.

Candidates must be able to communicate effectively with clients and client personnel on job sites. Possession of a strong technical education, professional demeanor, and desire to learn is essential. Strong attention to detail with excellent analytical and judgment capabilities is necessary.

The majority of our sites are located within a 200-mile radius of Sioux Falls. Limited overnight travel may be required with position. Per diem is provided if an overnight stay is required. You must have and maintain a valid driver's license.

We offer competitive pay, 401k, ESOP, health, dental & disability insurance, paid sick, holidays and vacation time.

GeoTek Engineering & Testing Services is the leader in our industry in the Sioux Falls area. We have been in business for over 34 years and specialize in Geotechnical Engineering, Construction Materials Testing, and Environmental/Industrial Hygiene Consulting.
